

# Professional development training for researchers

Nature Masterclasses on-demand training aims to build the skills, confidence, and careers of researchers by drawing on the expertise of high-profile Nature Portfolio journal Editors and leading experts and researchers in academia and industry.

## Did you know?\*

Scientific question	Grant proposals	Experiments and analysis	Publications and dissemination	Building your career
79%	75%	78%	81%	78%
of researchers struggle with ideation	of researchers struggle with writing grant proposals	of researchers struggle with data analysis	of researchers struggle with communicating findings to peers	of researchers struggle with networking

## Assets

To accommodate researchers' busy schedule, our training is self-paced, bite-sized, and on demand.

10–15  
minute lessons

Available  
on mobile devices

We will work with you to ensure your researchers take full advantage of your subscription and ensure your training objectives are met by providing:

Usage  
reports

Monthly  
engagement activities

Promo  
materials

# On-demand training courses

Our curriculum covers a broad range of skill sets that researchers need at every stage of their careers, with new courses being added every year.

Design experiments	Secure funding	Experiment and analyse	Write and publish	Share and disseminate	Building your career
Experiments: From Idea to Design	Finding Funding Opportunities	Managing Research Data	Writing a Research Paper *	Narrative Tools for Researchers	Getting an Academic Research Position
	Persuasive Grant Writing	Data Analysis: Planning and Preparing	Publishing a Research Paper *	Advancing your Scientific Presentations	Networking for Researchers
		Data Analysis: Conducting and Troubleshooting	Writing and Publishing a Review Paper *	Effective Science Communication	Introduction to Collaboration
	Interpreting Scientific Results	Focus on Peer Review	Creating Successful Research Posters	Leading a Collaboration	
		Research Integrity: Publishing Ethics	Maximising the Impact of Your Paper **	Participating in a Collaboration	
		Choosing the Best Journal to Publish Your Paper **	Building a Strong Online Researcher Profile		

\*Enhanced courses launched in 2024

\*\*Launching in 2025
